DIALOGUES ON FESTIVALS' ROLE IN THE POST COVID-19 SCENARIOS
EVERY TUESDAY AT 10.30 ON ZOOM

To better define this shared process of "co-imagining Covid-19 crisis response strategies" together, we invite you to participate in the discussions that will be held every Tuesday at 10.30 am on the Zoom platform, every week there will be an international guest.

The 6 member festivals of CHAIN REACTION project together with Assitej Italia, since the beginning in January 2020, have imagined the project as an opportunity to strengthen the ties and network actions between festivals. The Covid-19 emergency and all the transformations it will entail for the cultural system have stimulated them to re-modulate the project in relation to actions and objectives.

Hence the decision to use this time for a series of structured reflections between festivals, a moment to imagine new scenarios together, by opening a debate both nationally and with a selection of international festivals.

If you are interested, please confirm to **cri.cazzola@gmail.com**, you will receive the Zoom link to participate in the meeting.
